Alex Morgan

alex.morgan@example.com +61 491 570 006 linkedin.com/in/alex-morgan-example

- Computer engineering graduate with a keen interest in embedded software and robotics.
- Experience building sensor-driven prototypes, from firmware to the dashboards that read them.
- Teamwork and communication shown through tutoring and volunteer coaching.
- Seeking software or robotics roles that put hardware and software together.

EDUCATION

EXAMPLE UNIVERSITY — 2018 – PRESENT

Bachelor of Engineering (Honours) & Science (Computer Science)	WAM: 80.000	2020 – PRESENT
Bachelor of Engineering (Honours) & Bachelor of Commerce	WAM: 78.500	2018 – 2020
Dean's Honour List (Highly Commended 2020 — 2022)		2018 – 2022

SAMPLE INSTITUTE OF TECHNOLOGY — 2019

Foreign University Exchange Program

EXAMPLE HIGH SCHOOL — 2012 – 2017

Higher School Certificate — ATAR: 90.00 — 2017

EMPLOYMENT

SOFTWARE ENGINEERING INTERN, ACME ROBOTICS — 2024 JUN – PRESENT

- Containerised the simulation environment so every team member could reproduce a robot run with one command, cutting setup from a day to ten minutes.
- Wrote the documentation and CI checks that kept the team's build and deployment steps repeatable.
- Integrated a flight controller with the robot's navigation stack to test control ideas in simulation.

ACADEMIC TUTOR, EXAMPLE UNIVERSITY — 2022 FEB – PRESENT

- Tutored first and second year programming and systems courses for small groups each week.
- Wrote worked examples and practice questions that students used to prepare for assessments.
- Gave clear, constructive feedback on assignments and ran group discussions.

RELEVANT EXPERIENCES & PROJECTS

UNDERGRADUATE RESEARCH THESIS, DR. SAMPLE SUPERVISOR — 2023

Built and tested a low-cost printed strain sensor for a prosthetic hand, with real-time wireless readout and sensor layouts that can be changed per user.

ROBOT COMPETITION, EXAMPLE ENGINEERING SOCIETY — 2022

Designed a sumo robot with line sensors and autonomous navigation that won the advanced stream against eleven other teams.

SKILLS

PROGRAMMING LANGUAGES	C++, C, Rust, Python, Shell, Java
	English, Spanish (conversational)
PROFESSIONAL SOFTWARE	CAD/CAM, MATLAB, Slicer
INTERESTS	Photography, Additive Manufacturing, Robotics

REFEREES

DR. FIRST REFEREE	SENIOR LECTURER	EXAMPLE UNIVERSITY
DR. SECOND REFEREE	SENIOR LECTURER	EXAMPLE UNIVERSITY
